**Subject:** Greif civil enforcement question

Hi all,

Regarding Greif/Mid-America sites in WI—we understand that concerns about the operation of these three Wisconsin facilities presented to the EPA by [Personal Matters / Ex. 6] have been incorporated into the agency's criminal investigation. However, we are told that the same concerns may not have been incorporated into the reviews done by the civil side.

[Personal Matters / Ex. 6] would like to present their information to the civil side of the investigation. Could you please provide a contact I can provide to them so they can communicate the information to the civil-side investigators?

Thank you!

Colleene
